

koolRAP-elbow™

The koolRAP-elbow™ is used for post-operative, post-injury care. The koolRAP-elbow™ is made from the finest quality of stretch absorbent material that features velcro closures to adjust desired fit. It is specially designed to hold the koolPAK™ (6" x 9" or 6" x 12") in place for cold therapy/pain relief without harsh medical tapes.

- Tapeless support to hold koolPAK™ in place
- Eliminates tape blisters
- Gentle compression
- Easy access pocket for cold therapy
- Various sizes available
- Latex-free

- koolPAK™ cold therapy placement

- Pocket access area between layers of fabric

- Velcro closures adjust fit

INSTRUCTIONS

Insert the koolPAK™ into the special designed pocket (FIGURE 1) and wrap the koolRAP™ around the elbow. Attach the hook and loop closures. *Machine wash/gentle cycle with cold water. Line dry and reuse.*
